### Here's what other businesses like yours are saying about MagicYellow.com!

I would recommend Magicyellow to anyone and everyone for their advertising, you wont be sorry! Since I got my ad almost 3 months ago, my new Mobile RV business has gotten a ton of exposure, and in a 1 week period, I got 3 new high paying jobs! As of now, I am averaging at least 1 new job a week! My ad with Magicyellow is even on the front page of Google for a lot of the search terms I needed to be found under! Thanks Magicyellow, you made a new business owner very happy and are keeping me busy with new work!

MagicYellow has advertised my Thermal reconditioning business very sucessfully. It has sent me many new customer calls everyday for my services. This advertising has given me so many new, satisfied customers that I was able to buy the salon I worked at. My income has increased and has created much success for my salon.

"Sawgrass Tours is very pleased to be listed under your website. We signed up with your company on December 17th, of 2004 with a Preferred ad listed under "Bus Charter & Rental" and 2 days later we received a call from Florida State University that needed a bus shuttle to and from a hotel in Miami to the University of Miami. That one contract more than paid for our yearly fee with MagicYellow.com. We have received other phone calls because of your website and have been more than satisfied with the increased business you have provided for us. Thank you and God Bless."

"We get a lot of calls from MagicYellow.com. We have been with the company for over 2 years and just renewed our ad again. I am even going to suggest that we cut back or reallocate some of our print advertising dollars because it is so expensive compared to our MagicYellow.com ad and the results are not as good in comparison. We are very happy customers."

This is a great site! I'm putting a link to it on my Investigator's Desktop page so that my agents can access it quickly and easily. In my business we need good answers fast and MagicYellow delivers. I especially like the categorization feature and precise, comprehensive results.
