

About USCity.Net

What is ThinkLocal?

ThinkLocal is a free online business directory. Each ThinkLocal business listing features:

- The business's contact information
- A detailed map of the business location
- Precise driving directions
- Insightful user reviews

In addition to a comprehensive business directory, ThinkLocal also presents users with regional weather forecasts, city spotlight articles, maps of popular attractions and local event schedules. With such an array of valuable local information, ThinkLocal offers much, much more than the average phonebook or online directory.

Background

Network Solutions is the leading provider of web solutions for small businesses and domain name registration. MultiMedia Midwest and its MonsterCommerce division are a leader in e-commerce solutions and provides best-in-class online marketing and web design services.

More Information

Additional information about ThinkLocal and local search is available at Squidoo™. Simply go to www.Squidoo.com and search for "ThinkLocal." Then locate the following lens titles:

- [Local Search Engines Can Help Your Business Grow](#)
- [Get an Edge over the Competition with ThinkLocal](#)

ThinkLocal also provides an insightful [business blog](#). The blog features tips for using local search and other effective marketing strategies, as well as announcements from the ThinkLocal team.
