About Express Update

Express Update from Infogroup helps ensure the accuracy of your business listing on top Internet search engines, leading navigation systems and local online directories. By using Express Update, you can improve your ranking in local search results, and make sure your prospects and customers can find your business online.

About Infogroup

Infogroup powers business growth by combining the targeted high-value data our clients need with the expertise to use and deploy it effectively. We identify sales and marketing opportunities and enable our clients to connect and engage with their customers through innovative digital engagement solutions. Our industry-leading sales enablement solutions give sales professionals access to critical customer and prospect information, including sales triggers, to help them close more business. We uncover and unlock the unique insights that drive customer loyalty, and increase sales.

Infogroup data and services connect marketers and sales professionals with millions of consumers and businesses on a daily basis. Our clients range from Fortune 100 companies to local businesses. Infogroup data powers the top 5 internet search engines and provides point-of-interest data for the leading in-car navigation systems.

Growth is vital to the success of any business. It's not a nice to have. It's a must have.
We are Infogroup. We power business growth.
